Prof. dr. David Richards
(President of EANS)

Prof. dr. Sascha Köpke
(Chair of the Scientific Committee EANS)

Prof. dr. Rik Verhaeghe
(Director of Nursing Ghent University Hospital)

Dear colleague,

The University Centre for Nursing and Midwifery, Ghent University is very pleased
to host the EANS Summer Conference! This year's conference theme is:

"Leadership in Nursing: Challenges for the Future".

Leadership in nursing is conceptualized as occurring in three primary domains:
in clinical practice with patients and staff, within healthcare institutions and
professional organisations, and in healthcare policymaking areas. Powerful
leadership is deemed important to face the challenges of current nursing care.
It might lead to superior performances in clinical practice, and thereby delivers
benefits to those involved in the delivery or receipt of care. This conference will
address different aspects of leadership in nursing, as well as the evidence based
perspectives on this topic. This international conference will allow thorough
discussions on challenges and opportunities for leadership in nursing in a global
perspective.

The conference will be held in the beautiful city of Ghent, Belgium on
July 12, 2018. This conference will offer an exciting programme including two
distinguished international keynote speakers (Claudia Maier and dr. Julie Repper),
oral and poster presenters discussing innovative and scientific topics related to
leadership in nursing, and a panel discussion on the statement "The best leaders
are born, not bred".

The Scientific Committee welcomes the submission of high quality abstracts.
We welcome 2 different submission types:

- Oral presentation
- Poster presentation

Please find more information regarding abstract submission on our website.

Registration for the conference is open now! More information regarding fees
and registration can be found on our website.
