

# **The European Academy of Nursing Science (EANS) Winter e-Summit 2022**

**Tartu Health Care College and Tartu University, Estonia  
Monday February 21, 2022**

## **Topic: The Contribution of Nursing Science to eHealth**

### **The EANS Winter Summit**

The EANS Winter e-Summit 2022 will be a gathering of nurse scientists from across Europe and worldwide who come together to progress the scientific aims of EANS, develop collaborations and deepen their understanding of nursing. In addition, the Summit seeks to increase our understanding of nursing research in its various contexts within and outside Europe, during the current era of web-based meetings and communication.

### **Aim**

*For the 2022 EANS Winter e-Summit we will focus on highlighting how nursing science contributes to e-health. Especially we will focus on the implementation of nursing e-health interventions, the effects of e-health on patients', nursing and health care organizations' outcomes, ethics of e-health use, educational and managerial aspects of e-health.*

### **Format**

Keynotes, roundtables, e-posters and informal talks will allow addressing this topic with its dimensions from different angles and viewpoints. The scientific programme includes examples of different e-health solutions and technological innovations in use in nursing. Such innovations include collaboration in education, research, clinical practice and organizational decision-making, and especially the rise of awareness and arguments from ethics point of views, both research and clinical ethics.

### **Web based Format (Worksup Platform)**

Interactive keynotes and discussion, round tables and discussion, e-posters and informal talks.
